

Spring Break Honduras 2025

Herald of Truth

Santa Ana, Francisco Morazan, Honduras C.A.
March 9 2025 - March 28, 2025

Honduras Mission Trip - 2025

What to expect:

SAFETY!

We will be staying on our property located in Santa Ana. It is gated and 100% safe and secure. All of our water is completely filtered, including our toilet water. We have a kitchen staff and the best equipment for all our needs on our facilities.

Monday Through Friday:

Working triage

Observing surgery in hospitals

Village clinicals

Assisting in pharmacy

Family Practice with patients

Administering physicals

Evangelistic opportunities (possibility to build church building)

Working with Reach 1 Teach 1 program

Several cultural experiences. Time to relax and additional study if desired.

Extra experiences which are also considered a part of healthcare:

House building

Food distribution

Clothing distribution

Hygiene education

Honduras Trip - 2025

Itinerary & Cost

Date options: March 9-14 or March 16-21 or March 23-28, 2025

Total cost of trip will be \$1,200 plus airfare

**includes insurance, daily meals, working budget and lodging.

We will arrive in Honduras on a Sunday. We will eat lunch after leaving the airport and receive orientation when we arrive. You will be shown to your room and settle in prior to supper and devotional.

Weekly schedules will vary between time in the clinic, hospital and villages.

There will be opportunity to eat at restaurants when traveling and buying souvenirs. You will need to have money to cover these outings. \$200-\$300 would be a good consideration for these costs.

What to Bring

For Travel: Wear something comfortable with pockets to keep up with your passport and other important documentation and belongings. Inform yourselves on COVID requirements and luggage regulations. As of now, there are no COVID requirements.

For Working: Expect to get dirty at times! There is laundry service. Closed-toe shoes, work gloves, and a shade hat are beneficial. Sunscreen is important as this is an equatorial region. Daily temperatures will range between mid 50's and mid 80's. We will be 700'-4000' above sea level, so mosquitoes (and associated diseases) are not a huge problem, but bug spray is still a good thing to have on hand. We may experience precipitation, so a cheap pancho or other light rain jacket will suffice but is not necessary. A water bottle, however, is an absolute must.

Whatever technology devices are useful to you (phone, tablet, computer). We have great wifi on the property.

For Play: We will walk around town and spend a lot of time on our feet. If we visit the children's home, you will play with the kids, paint nails, play soccer, color, hygiene classes, etc.

For Spending/Giving: Snacks and water are available at the compound and locally. There is ATM service in Ojojona and Tegucigalpa if you need access to more money at any time.
